Custom Facial - $150.00
Your esthetician picks the right treatment for your needs.

Deluxe Facial - $175.00
Custom Facial with added steps and layers

Venus Glow Facial - $175.00
Hydra-microdermabrasion with infusion and extraction combined with Image 0, lift products for instant results

Hydrafacial - $225.00
Patented technology to cleanse, extract, and hydrate. HydraFacial super serums are made with nourishing ingredients that create an instantly gratifying glow
  + Booster - $275.00
  + Platinum - $325.00

Illuminate Facial - $225.00

Mini Facial - $65.00
30 minute facial with extractions, exfoliations and masking

Post Laser Facial - $65.00

Teen Facial - $65.00

Dermablade - $65.00
An exfoliating treatment that involves an esthetician gently scraping the surface of your skin with a surgical scalpel to remove dead skin and peach fuzz

Microdermabrasion - $80.00
A non-invasive procedure that uses tiny crystals or other exfoliating surfaces to help remove the superficial layer of dead skin cells

Peels

A technique used to improve the appearance of the skin on the face, neck or hands. A chemical solution is applied to the skin that causes it to exfoliate and eventually peel off. The new, regenerated skin is usually smoother and less wrinkled than the old skin. Your esthetician can determine the best peel for you!

Superficial Peels - $75.00 - $150.00
Medium Depth Peels - $150.00 - $295.00
Body Peel - $250.00
Skin Resurfacing

DermaFrac - $200.00
A roller with super fine needles gently puncture the top layers of skin and create a microchannel that allows a peptide solution to simultaneously penetrate the skin leaving you with plump, glowing, younger looking skin.

Collagen Induction Therapy (CIT) - $275.00
Also known as medical skin needling or micro-needling, is a minimally-invasive skin rejuvenation treatment designed to improve the appearance of fine lines and wrinkles as well as scars on the face and body.

Erbium - Package of 3 - $1800
Erbium laser skin resurfacing precisely ablates the the outermost layer of the skin to reveal the underlying skin that is smoother and younger looking. The procedure also activates collagen to promote further tightening of the skin.

Skin Rejuvenation

IPL (Intense Pulsed Light or “Photofacial”)
An IPL treatment uses the power of broadband light to improve the appearance of sun spots, rosacea, age spots, and skin texture. The treatment can also be used for hair removal, photo rejuvenation, as well as to alleviate dermatologic diseases like acne.

Scarlet RF
Deep microneedling radio frequency technology used to tighten skin and improve texture. Frequent treatments with Scarlet can help improve fine lines, wrinkles and crepiness and help prevent the need for early face and neck lifting. Heat is introduced in to the skin through controlled needle punctures without damaging the skin surface to help to remodel loose unhealthy collagen resulting in tighter firmer skin.

Agnes RF - $4500.00
(Non-surgical facelift) Injectable Intense Radio Frequency specially designed/shaped needles are used to target deep, medium or superficial fat. The heat produced stimulates collagen and tightens based on the depth of energy delivered below the surface. The energy causes a localized injury that heals very quickly and keeps the surface intact. The heat shrinks or destroys the sebaceous gland, leading to smaller pores and reduced acne. We can improve the fat accumulation around the eyes and define the jawline/chin.

Venus Tribella™ - $1050.00
TriBella™ three-in-one total facial treatments combine photofacial, anti-aging, and skin resurfacing to improve skin tone, elasticity, and texture quickly and effectively.

Venus® Legacy
The highly advanced non-invasive medical device that effectively resolves challenging face aesthetic needs, such as non-surgical wrinkle reduction. Treatments are comfortable with no downtime using RF technology that is safe for all skin types.

Non-Surgical Face Lift

Chest - $300.00

**Body Treatments**

**Coolsculpting®**
The unique CoolSculpting® fat-freezing technology is a non-surgical, scientifically proven way to reduce pockets of fat in trouble spots such as the abdomen, flanks or under the chin in as little as one session. Up to 20-25% reduction in fat layer thickness after a single session. Results are typically seen 2-3 months or more after treatment.

**Schedule your Consultation with a Coolsculpting Graduate!**

**Venus® Legacy**
The highly advanced non-invasive medical device that effectively resolves challenges body aesthetic needs, such as non-surgical cellulite reduction and wrinkle reduction. Treatments are comfortable with no downtime using RF technology that is safe for all skin types.

- **Body (30 Minute) - $300**
- **Body (60 Minute) - $450**

**Viveve® - $3000.00**
Viveve® is the breakthrough treatment used to improve women’s lives through intimate wellness. The Viveve device delivers a noticeable tightening of the vagina for increased friction and pleasure during sexual intimacy, greater bladder control, and more youthful vaginal tissue.

**Laser Hair Removal**
A medical procedure that uses a concentrated beam of light (laser) to remove unwanted hair. The laser emits a light that is absorbed by the pigment (melanin) in the hair. The light energy is converted to heat, which damages the hair follicles that produce hairs. This damage inhibits or delays future hair growth.
